Execution First

We measure success by the value our customers receive, improved reliability, greater efficiency, and safer operations.

VISION 2030

Supporting the Kingdom's objectives through localization, digital transformation, and sustainability.

HEADQUARTERS

Dammam, Eastern Region,
Kingdom of Saudi Arabia

SECTION 01

About Execution Pioneers

Execution Pioneers is a Saudi-based industrial solutions and technology commercialization company headquartered in Dammam, strategically positioned to serve major industrial customers across the Kingdom of Saudi Arabia. We bridge international technologies with local market needs by providing engineering, execution, technical representation, and lifecycle support across the energy, utilities, infrastructure, and industrial sectors.

With extensive combined industry experience, strong strategic partnerships, and deep knowledge of the Saudi market, we help asset owners, EPC contractors, utilities, and industrial operators improve reliability, efficiency, sustainability, and long-term operational performance, while supporting the Kingdom's Vision 2030 objectives.

Industries Served

Across KSA's sectors

Partnership-Driven

Gateway for global tech

Vision 2030 Aligned

Localization & sustainability

OUR POSITIONING

A Saudi industrial solutions and technology commercialization company, connecting global technologies with Saudi industrial customers through engineering, execution, localization, and long-term partnerships.

SECTION 02

Vision, Mission & Core Values

Our Vision

To be a trusted Saudi industrial solutions leader, recognized for execution excellence, digital innovation, and sustainable impact across the Kingdom's key industries.

Our Mission

To deliver reliable, innovative solutions that improve safety, efficiency, and sustainability, building long-term partnerships that support the Kingdom's industrial growth.

■ Core Values

Execution Excellence

Turning strategy into safe, measurable results

Innovation with Purpose

Practical digital & engineering solutions that add value

Customer-Centricity

Long-term partnerships over short-term wins

Safety & Quality

Non-negotiable standards in every engagement

Localization & Sustainability

Supporting the Kingdom's Vision 2030 objectives

SECTION 03

Why Execution Pioneers

Clients and international companies choose Execution Pioneers because we combine a strong local presence with disciplined, technically grounded delivery.

Strong Local Market Knowledge

Clear grasp of Saudi standards, procurement, and stakeholders.

Engineering & Technical Expertise

Capability across inspection, cooling, digitalization, and industrial systems.

Strategic Technology Partnerships

Connecting international technologies with Saudi opportunities.

Local Project Execution

On-the-ground delivery from Dammam, near the Kingdom's industrial hubs.

Industrial Digital Transformation

AI-backed tools that turn operational data into performance.

Fast Response & Technical Support

Responsive local coordination and support when it is needed.

Long-Term Partnership Approach

A commitment that extends beyond a single project.

Customer Focused Solutions

Built around the operational outcomes our clients need.

The result, a dependable local partner that turns complex industrial challenges into safe, measurable performance.

SECTION 04

Our Competitive Advantage

Execution Pioneers combines local market expertise with international technologies to deliver practical industrial solutions tailored for Saudi Arabia. Our approach emphasizes technical excellence, rapid mobilization, engineering support, lifecycle services, and long-term customer partnerships.

Saudi-Based Engineering Partner

Local presence and local delivery

Fast Project Mobilization

Rapid response and deployment

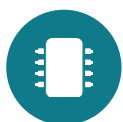

International Technology Representation

A gateway for global technologies

Complete Engineering & Execution Support

From design through commissioning

AI-Enabled Industrial Solutions

Turning data into performance

One-Stop Industrial Services

A single, accountable partner

Long-Term Technical Partnership

Support beyond project delivery

Cost & Performance Optimization

Efficiency and reliability gains

SECTION 05

Industries We Serve

Execution Pioneers supports a broad range of industrial and infrastructure sectors across the Kingdom of Saudi Arabia.

Oil & Gas

Upstream,
midstream &
downstream

Petrochemical

Processing plants
& complexes

Power Generation

Conventional,
hybrid &
renewable

Power T&D

Grids, substations
& networks

Utilities

Water, power &
industrial utilities

Manufacturing

Heavy & light
manufacturing

Water

Treatment, supply
& infrastructure

Environmental

Compliance &
responsible ops

FROM THE EASTERN REGION TO THE WHOLE KINGDOM

Headquartered in Dammam, at the heart of Saudi Arabia's industrial corridor, we are positioned close to the Kingdom's major plants, grids, and infrastructure hubs, enabling fast mobilization and responsive support.

SECTION 06

Service Portfolio

Our solutions are organized into eight focused practice areas. Each follows a consistent structure, overview, key solutions, customer benefits, and value delivered, so our capabilities are easy to evaluate.

01

Oil & Gas — Specialized Solutions

Completions, downhole tools, integrity & flow assurance

02

AI-Backed Industrial Digitalization

Predictive maintenance, APM, IIoT, digital twins

03

Power Generation Solutions

Performance, monitoring, retrofits & upgrades

04

Power Distribution & Transmission

Substations, grid digitalization, smart-grid support

05

Industrial Inspection Services

Holiday testing, coating & lining, asset integrity, QA/QC

06

Industrial Cooling Solutions

Cooling towers, ACHE, fans, gearboxes, optimization

07

Environmental Solutions

Emissions, monitoring, energy efficiency, ESG enablement

08

Industrial Engineering & Technical Services

EPC/EPCM support, MEI works, commissioning

■ Delivery Model

Engineer

Integrate

Execute

Commission

Support

A consistent lifecycle approach, applied across every practice area, from concept through operation.

Oil & Gas — Specialized Solutions

Specialized solutions for upstream, midstream, and downstream oil & gas operations, supporting operators throughout the asset lifecycle.

■ Key Solutions

- Cutting-edge downhole tools to improve production and safety
- Casing, tubing, liners, packers, safety valves & completion accessories
- Multi-stage & intelligent completion systems
- Wellbore cleaning & conditioning solutions
- Integrity management & asset reliability solutions
- Flow assurance, monitoring & diagnostic technologies
- Well, pipeline & facility support solutions

■ Customer Benefits

- ✓ Improve production performance
- ✓ Improve asset reliability
- ✓ Improve safety
- ✓ Increase equipment life
- ✓ Reduce downtime

VALUE DELIVERED

By supporting operators across the full asset lifecycle, we help improve production, protect critical assets, and enhance safety across upstream, midstream, and downstream operations.

AI-Backed Industrial Digitalization

We enable industrial digital transformation by integrating artificial intelligence, advanced analytics, and smart monitoring solutions tailored for heavy industries.

■ Key Solutions

- AI-based predictive maintenance solutions
- Asset performance management (APM)
- Industrial IoT integration & data platforms
- Real-time monitoring & anomaly detection
- Digital twins & operational dashboards

■ Customer Benefits

- ✓ Increase operational efficiency
- ✓ Reduce unplanned downtime
- ✓ Reduce operating costs
- ✓ Improve safety
- ✓ Improve decision-making

VALUE DELIVERED

By turning industrial data into actionable insight, we help clients move from reactive to predictive operations — reducing unplanned downtime, extending asset life, and improving day-to-day decision-making.

SERVICE PORTFOLIO — 03

Power Generation — Specialized Solutions

Execution Pioneers supports conventional and renewable power generation assets with technical, operational, and optimization solutions.

■ Key Solutions

- Power plant performance assessment & optimization
- Condition monitoring & predictive maintenance
- Retrofit & upgrade support
- Integration of digital solutions for power assets
- Support for gas, steam, hybrid & renewable plants

■ Customer Benefits

- ✓ Improve plant availability
- ✓ Improve asset reliability
- ✓ Increase operational efficiency
- ✓ Improve sustainability

VALUE DELIVERED

We help power producers get more from their assets — improving performance, reliability, and availability across conventional, hybrid, and renewable generation.

Power Distribution & Transmission

We deliver solutions that enhance the reliability, safety, and efficiency of power distribution and transmission networks, from planning to commissioning and lifecycle support.

■ Key Solutions

- Substation & transmission asset solutions
- Grid monitoring & digitalization
- Reliability & loss-reduction initiatives
- Inspection, diagnostics & condition assessment
- Support for smart-grid implementation

■ Customer Benefits

- ✓ Improve network reliability
- ✓ Reduce technical losses
- ✓ Improve safety
- ✓ Increase operational efficiency

VALUE DELIVERED

Our solutions strengthen the reliability, safety, and efficiency of transmission and distribution networks while supporting the transition toward smarter, better-monitored grids.

Industrial Inspection Services

Specialized inspection services that protect the integrity of critical assets, coatings, and linings helping owners detect defects early, verify quality, and maintain long-term reliability.

■ Key Solutions

- Holiday & spark testing
- Coating & lining inspection
- Asset integrity inspection
- QA/QC support & technical verification
- Defect assessment & inspection reporting
- Coating restoration verification

■ Customer Benefits

- ✓ Improve asset reliability
- ✓ Improve safety
- ✓ Reduce downtime
- ✓ Increase equipment life
- ✓ Reduce operating costs

VALUE DELIVERED

By detecting coating defects and integrity issues before they escalate, our inspection services help clients avoid unplanned failures, extend asset life, and maintain compliance with quality and safety requirements.

Industrial Cooling Solutions

Industrial cooling technologies and engineering support that help plants reject heat efficiently and reliably, across the full equipment lifecycle.

■ Key Solutions

- Cooling Towers
- Air-Cooled Heat Exchangers (ACHE)
- Process Gas Cooling Systems
- Industrial HVAC Systems
- Fans & Gearboxes
- Fill Packs
- Drift Eliminators
- Water Distribution Systems
- Performance Optimization
- Spare Parts & Lifecycle Support

■ Customer Benefits

- ✓ Improve cooling efficiency
- ✓ Reduce energy consumption
- ✓ Increase equipment reliability
- ✓ Extend equipment life
- ✓ Reduce maintenance cost

VALUE DELIVERED

Our cooling solutions improve thermal performance and energy efficiency while increasing the reliability and availability of critical heat-rejection systems — helping plants run closer to design intent at lower operating cost.

Environmental Solutions

Environmental and sustainability-focused solutions supporting compliance, efficiency, and responsible operations across complex industrial environments.

■ Key Solutions

- Emissions monitoring & reduction solutions
- Environmental monitoring systems
- Energy efficiency & carbon-footprint reduction initiatives
- Water & waste management support solutions
- ESG & sustainability-enabling technologies

■ Customer Benefits

- ✓ Improve sustainability
- ✓ Support regulatory compliance
- ✓ Reduce emissions
- ✓ Reduce operating costs

VALUE DELIVERED

We help clients operate more responsibly — supporting compliance, improving energy efficiency, and advancing their sustainability and ESG objectives.

SERVICE PORTFOLIO — 08

Industrial Engineering & Technical Services

End-to-end industrial contracting services, combining engineering, procurement, construction, and execution management, from small-scale upgrades to large turnkey projects.

■ Key Solutions

- EPC & EPCM support services
- Brownfield & greenfield industrial projects
- Mechanical, electrical & instrumentation (MEI) works
- Industrial installation & commissioning
- Project execution & site management

■ Customer Benefits

- ✓ Reliable project delivery
- ✓ Improve safety
- ✓ Reduce schedule risk
- ✓ Cost efficiency

VALUE DELIVERED

From engineering through commissioning, we manage industrial projects end to end, delivering disciplined, safe execution on both brownfield and greenfield sites.

SECTION 15

Strategic Partnerships & References

Execution Pioneers collaborates with leading international technology providers to deliver innovative engineering solutions across Saudi Arabia, ensuring local support, technical excellence, and long-term value for our clients. Beyond market representation, we provide engineering consultation, procurement, execution, commissioning, and after-sales support across the full project lifecycle.

SECTION 16

Why Choose Execution Pioneers

Clients and international partners choose Execution Pioneers for a combination of local strength, technical depth, and long-term commitment that is difficult to match in the Saudi market.

Saudi-Based Engineering Team

Local engineers delivering across the Kingdom

Fast Project Mobilization

Rapid response and deployment when it matters

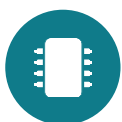

International Technology Partnerships

A trusted gateway for proven global technologies

Engineering Excellence

Technical rigor and quality in every project

AI-Driven Industrial Solutions

Turning operational data into predictive performance

Customer-Focused Execution

Solutions built around the outcomes clients need

Long-Term Technical Support

Partnership that continues beyond commissioning

Vision 2030 Alignment

Supporting the Kingdom's localization goals
